Danger from the Plague.

There is grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for consumption, coughs, and colds. Mrs. Geo. Walls of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them." It prevents pneumonia, cures a gripe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds. 50c and \$1.00. Guaranteed by the Red Cross pharmacy. Trial bottle free.

GRANITEVILLE.

A small tenement to rent. Inquire of A. A. Smith or Jerry Kehoe at the house.

Regular meeting of Court Boh Roy, No. 6, F. of A., on Tuesday evening, October 9. All members are requested to be present. For order financial aid.

Railroad Trainmen.

A. E. King, grand secretary-treasurer of the Brotherhood of Railroad Trainmen, has issued a statement showing the number of death and disability claims which the organization has paid in proportion to its membership in the last ten years. In 1896 a claim was paid for every fifty-three members, and in 1905 one claim for every sixty members was paid. The average for ten years is one claim to every fifty-nine members.

OPPOSED TO STRIKES.

Iron Molders Prefer Conciliation to Open Rupture.

The Iron Molders' Union of North America has had a busy season this year—that is to say, the organization has had more than the usual number of contests with employers during 1906. Strikes for increases in wages have been ordered in several of the chief molding centers of the country, including Chicago, Boston, St. Paul, Minneapolis, Milwaukee and several other cities.

Notwithstanding the many strikes which the organization has ordered, the policy of the Iron Molders' union is, as it has been for several years, for conciliation and arbitration rather than for open rupture. In the current issue of the union's official Journal President Joseph F. Valentine says on this subject:

"The Iron Molders' union for the past fifteen years has consistently advocated the conciliatory policy. It has succeeded in educating its members to recognize the good to be derived from sitting down with their employers in friendly council to discuss all subjects of mutual interest and to thrash out and effect a settlement of all matters which threaten serious differences. It has recognized the fact that amid the startling industrial changes of the past quarter of a century new problems have arisen that cannot all be solved by the rules which previously did good service. Problems they are, which must be fearlessly and yet fairly discussed with their employers. It believes, too, that just as these problems are difficult of satisfactory solution by the molders it is equally difficult for the foundrymen, with due regard for the interests of the molder, to suggest the answer. But amid all this confusion of thought, amid all the conflict of selfish interests on both sides, it has held firmly to its faith in the ultimate triumph of heart to heart discussion by the interested parties."

HELP WOMEN WORKERS.

What One Chicago Union Has Done For the Weaker Sex.

Labor unions have always maintained that women should be paid equal wages with men for equal services performed. A recent agreement between the management of the Chicago and Oak Park Elevated railroad and Division No. 308 of the Amalgamated Association of Street and Electric Railway Employees shows what that union has done in that direction. Before the union was organized the women ticket sellers on the Lake Street Elevated road received \$1 a day, while the men ticket agents were paid \$1.50 a day. The first agreement made between the union and the company set the wages of women ticket agents at \$1.50 a day. In the last contract the women ticket sellers were advanced to \$1.60 a day, while the men who are employed in the same capacity receive \$1.65. The men, however, are required to work at night, while the women work during the day. In addition to the wage increase the women ticket agents are given one-half day off each month with pay when they have worked twenty or more days in the month. If they desire they can let the time accumulate and get a week's vacation with pay each year. This increase of 60 per cent in wages and improved working conditions has been brought about in four years without a strike or serious disagreement between the management and the employees. —Chicago Record-Herald.

CHINESE A PLAGUE.

British Labor Leader's Opinion of the Cooly as a Worker.

The decision to employ Chinese labor on the Panama canal is criticised by labor members of the house of commons. Keir Hardie, leader of the left, said: "I hope this matter has not progressed to the point of definite settlement. My views on the American question of Chinese labor may be expressed in a single sentence—I hope that the people of the United States will have learned from the experience of the British government in South Africa and will keep the Chinese out as they would the plague."

"Chinese labor and Chinese slavery under the conditions which obtained in South Africa are associated in the public mind. From the form in which the news reaches us I gather that the terms under which Chinese are to be introduced are almost identical with those which governed their introduction into South Africa. My sympathies are therefore with the people of America."

Labor Briefs.

A shortage of miners is reported from West Virginia. It is estimated that there is employment there for 15,000 additional miners.

By a vote of 13,733 to 7,084 the members of the International Union of United Brewery Workers of America have decided to hold a convention in Toronto.

Walter Ames of Kansas City, the international vice president of the International Association of Machinists, who has had charge of the New England district for the past four years, has received an assignment from the international office to take charge of the district west of Chicago.

Officials of the Amalgamated Association of Iron, Steel and Tin Workers of America have announced that practically all the tin and sheet plate companies of the country have signed the wage scale for the ensuing year.

During the last year the Iron Molders' Union of North America has paid out to its members in sick benefits the sum of \$1,170,009.75.

Omaha C. L. T. For Referendum. The Central Labor union of Omaha at its meeting of Aug. 17 passed resolutions in support of the effort that is being made by the Federation of Improvement Clubs to induce the city council to submit to a vote of the people the question of adopting the initiative and referendum in city affairs.

A. F. OF L. CONVENTION.

Many Important Matters to Come Before the Delegates—Union Label Exhibit Promises to Be Interesting—A New Feature.

Frank Morrison, secretary of the American Federation of Labor, recently visited Minneapolis for the purpose of looking after arrangements for the convention of the A. F. of L. to be held there on Nov. 12. Mr. Morrison went over the convention programme with the local men and devoted all his time to business in connection with the proposed union label exhibit. It is hinted that the exhibit will not be confined strictly to a display of union made products, but that several sweat shop scenes will show conditions under which the nonunionist works, particularly in the tailor and cigarmaking industries.

That the convention will cover fully two weeks there is no doubt, and the chances are that it will last considerably longer. The present is a critical time in the history of the American Federation of Labor, and the advent of the federation into politics and the success or failure of the move will have had a pretty fair trial by the date the convention assemblies. That the political aims of the organization will be well considered and take up considerable time of the delegates is conceded by nearly all.

Besides the political questions there are several stubborn controversies between affiliated unions which will come before the convention. Among these is the dispute between the steamfitters and the plumbers, which has been an issue at every gathering of the federation for seven or eight years. It was thought in some quarters that the recent action of the executive council in granting affiliation and a charter to the steamfitters would settle this matter, but notice has been given that the plumbers will continue their fight in the convention for jurisdiction over the steamfitters, so the end is not yet.

Two other organizations which annually air their grievances are the longshoremen and the seamen, neither being able to agree as to the control of some lines of work. Year in and year out these unions come before the convention in an effort to "get together," but each successive attempt has proved a failure.

Then, too, the brewery workers are in hot water, their trouble being that they are unable to control the teamsters, engineers and firemen employed in the breweries. In this case several other organizations have stepped in and claimed control of the respective lines. For instance, the teamsters' union asks that brewery teamsters be compelled to affiliate with that organization and the same with the stationary engineers and firemen. All three of which are claimed by the Brewery Workers' union.

One dispute which will in all probability be settled, and settled permanently, is that of the Amalgamated Woodworkers and the Brotherhood of Carpenters. Negotiations have been in progress for several years, with the result that an agreement now seems certain.

The entertainment committee at Minneapolis has arranged for a banquet, a trolley ride in and about the twin cities, a theater party and a mass meeting at the Auditorium, at which prominent union labor men of the United States and Canada will be present. Samuel Gompers will be the speaker of the evening, and John Mitchell, Dennis A. Hayes, William Huber, James P. Ballantyne, Daniel J. O'Keefe, Max Morris, James O'Connell, James Duggan and John B. London, all members of the executive council, will be present.

Victor Berger of Milwaukee will attend the convention as the representative of the Wisconsin Federation of Labor and Max Hayes of Cleveland as the representative of the Cleveland Central Labor council. Both these men are well known exponents of socialism. Frank K. Foster of Boston will represent the International Typographical union. Mr. Foster is a labor editor of renown and is a clever public speaker and writer on economic questions.

HOUSEHOLD RANGES AND FURNACES

Are the Best.

E. A. Prindle, Telephone 417-4 Depot Square.

HOUSEHOLD CARES

Tax the Women of Barre the Same as Elsewhere.

Hard to attend to household duties. With a constantly aching back. A woman should not have a bad back. And she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys. Here is a Barre woman who endorses this claim:

Mrs. M. Gammel, 31 Brooklyn street, Barre, Vt., says: "I suffered terribly for two or three years with severe pains across my back and up my side. I had headaches and spells of dizziness and a distressing kidney weakness that compelled me to rise often during the night and thus disturbed my rest. The doctors gave me medicines but I received little benefit until I procured Doan's Kidney Pills sold by E. A. Drown, the druggist. It was only a few days before I could see that they were helping me. The improvement was gradual and as I kept on taking the remedy I became better in every way. My kidneys became normal in action. I can honestly say that I never found anything that proved of such great benefit as Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A Boon to the Bilious

Are you compelled to deny yourself many wholesome foods because you think they make you bilious? Do you know that your condition is more to blame than the foods? Your liver and stomach need attention more than the diet. When you find yourself suffering with a bilious attack, take

BEECHAM'S PILLS

and all annoying symptoms will soon disappear. They settle the stomach, regulate the liver and exercise the bowels. Their good effects are felt immediately.

Beecham's Pills mingle with the contents of the stomach and make easy work of digestion. The nourishing properties of the food are then readily assimilated and the residue carried off without irritating the intestines or clogging the bowels.

Beecham's Pills should be taken whenever there is sick headache, tired tongue, constipation, sallow skin or any symptoms that indicate an inactive liver.

Sold Everywhere. In boxes 10c. and 25c.

Sunday, Nov. 18, is designated as "ministers' day." Upon that date the Rev. Charles Stehle, superintendent of the department of church and labor of the Presbyterian church, will hold a mass meeting of ministers of the twin cities and outside towns. This meeting has for its object the bringing into closer touch of the church and the labor union. Mr. Stehle was a machinist before he became a minister and is a member of the machinists' union.

A Unique Law.

A unique law is still in force at Stratford, in Prussian Pomerania. A paragraph of the police regulations of 1860, which is still being enacted, reads: "Smoking in the streets of promenades of this town is positively prohibited. Violators of this law being punished by a fine, or eventually by a number of marks the fine amounts to."

Painting Tileware.

Paint will stick to tileware if the surface is scratched with a piece of rough pumice stone or coarse sandpaper and a thin coat of shellac varnish applied before the paint is put on.

The Best Ambulance in the City at the Shortest Notice.

CLAY FARM,--- 1 1 2 Miles from this City.

This elegant farm containing 108 acres, has been placed with us for immediate sale. We believe it would be difficult to find a more desirable place, either as a money maker or in more pleasant location. The place will carry 25 cows, summer and winter, and produces about 70 tons of hay. The soil is especially rich and productive, being well adapted for any crop. Tillage land lays well. Pasture can be plowed, and for its size cannot be beat in the county. The cut gives an idea of the buildings, but the place must be seen to be appreciated. Nice water and plenty of fruit and wood. We will be pleased to show you this property and tell you about the income derived from it. Large photograph at office. Call any time. Open every evening except Thursday.

For full particulars enquire at the
